

ADOBE® WEB OUTPUT PAK DELIVER DYNAMIC DOCUMENTS IN REAL TIME

Use Adobe Web Output Pak to:

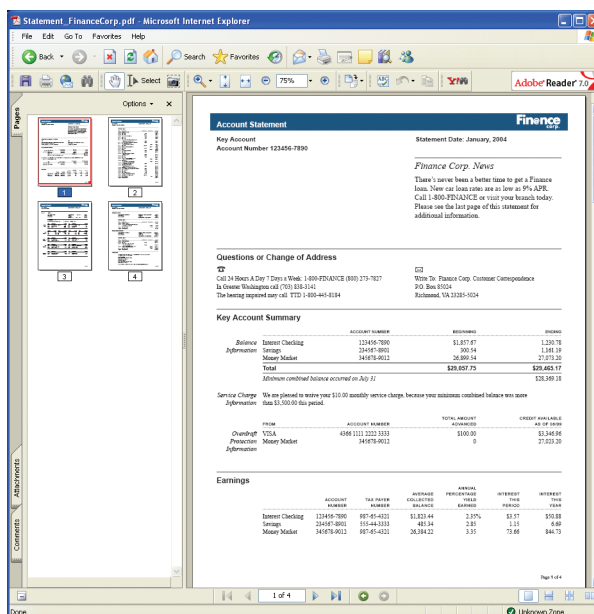

- Give line-of-business users the ability to view customer-critical data instantly
- Enable customer service representatives to view customer documents in an online call-center environment
- Let your end customers view and print documents when and where they choose
- Provide remote users with access to a wide range of documents containing up-to-the-minute information, including financial and regulatory-compliant documents, customer orders, and billing information

In an e-business world, the Web is an important vehicle for delivering up-to-the-minute business documents to customers and other end users. With Adobe Web Output Pak, you can deliver online, real-time document output to your Web-connected audiences.

Adobe Web Output Pak offers document generation capabilities that enable organizations to provide customers with access to up-to-the minute information through the Web. Personalized Documents are dynamically generated and delivered in Adobe Portable Document Format (PDF) or Hypertext Markup Language (HTML) and provide end users with access to documents 24 hours a day, 7 days a week.

Enhance a variety of applications

By providing end users with more options and on-demand access to information stored in your business systems, Adobe Web Output Pak lets you furnish better customer service to key audiences while simultaneously helping you reduce costs. With this solution, you can ensure that documents on the Web are an exact representation of your paper documents.

Deliver professional-looking Adobe PDF or HTML documents to the Web in real time.

System Requirements

Key features

Accelerate e-business initiatives

With Adobe Web Output Pak, you can quickly establish a leading-edge online presence in the competitive world of e-business. Because this solution extends line-of-business applications and legacy systems, you can leverage existing data as part of a multichannel e-business strategy.

Reduce costs

Adobe Web Output Pak lets you deliver customer-focused Web documents at a fraction of the printing and mailing costs typically associated with business documents and may reduce or eliminate the costs of preprinted forms inventories, paper handling, postage, and storage. Realize dramatic savings and rapid return on investment, particularly with your high-volume output needs.

Improve customer relationships

With Adobe Web Output Pak, you can provide customers and partners with up-to-the-minute, around-the-clock access to business information. Delivering personalized documents on demand from your legacy or line-of-business system means that time- or customer-sensitive documents are available when and where they are needed—resulting in faster problem resolution and improved customer service.

Generate documents in Adobe PDF

Using Adobe Web Output Pak enables companies to generate documents in Adobe PDF over the Web for printing when needed. Adobe PDF ensures compliance by preserving the exact formatting of the original materials.

Additional features

- Works with Adobe Output Designer, an easy-to-use document template design tool
- Supports dynamic, multipage documents
- Allows you to personalize documents by including custom messages
