

Extend Your Reach.

Engage with 4Point. Improve your customer's experience and streamline internal processes with our Adobe-based solutions. Our technical experts work with you to determine the best fit for your needs. We work as a team to deliver the right results.

www.4Point.com

“ Because of the complexity of our requirement, Adobe was quick to direct us to 4Point. We learned of 4Point’s excellent track record in delivering solid solutions for customers with sophisticated needs, and looked no further. The fact that 4Point was able to understand our business so thoroughly and identify the necessary technical requirements to support our processes so skillfully was very impressive.”

Jennifer Foster,
Director of Medicare Consumer Marketing, CVS Caremark

We Work as a Team to Find the Right Solution...Every Time

Custom or turnkey solutions built on best practices

Organizations looking to communicate more effectively, whether internally or externally, will find the service and support expertise they need in 4Point.

We’ve delivered solutions in all industry sectors, turning our best practices and insight on enterprise application requirements into quality solutions that transform our customers’ expectations.

Whether we’re designing, developing, or deploying a custom solution, leveraging existing IP, or integrating an existing solution, we believe in providing each of our customers with our focused attention and listening to what they have to say.

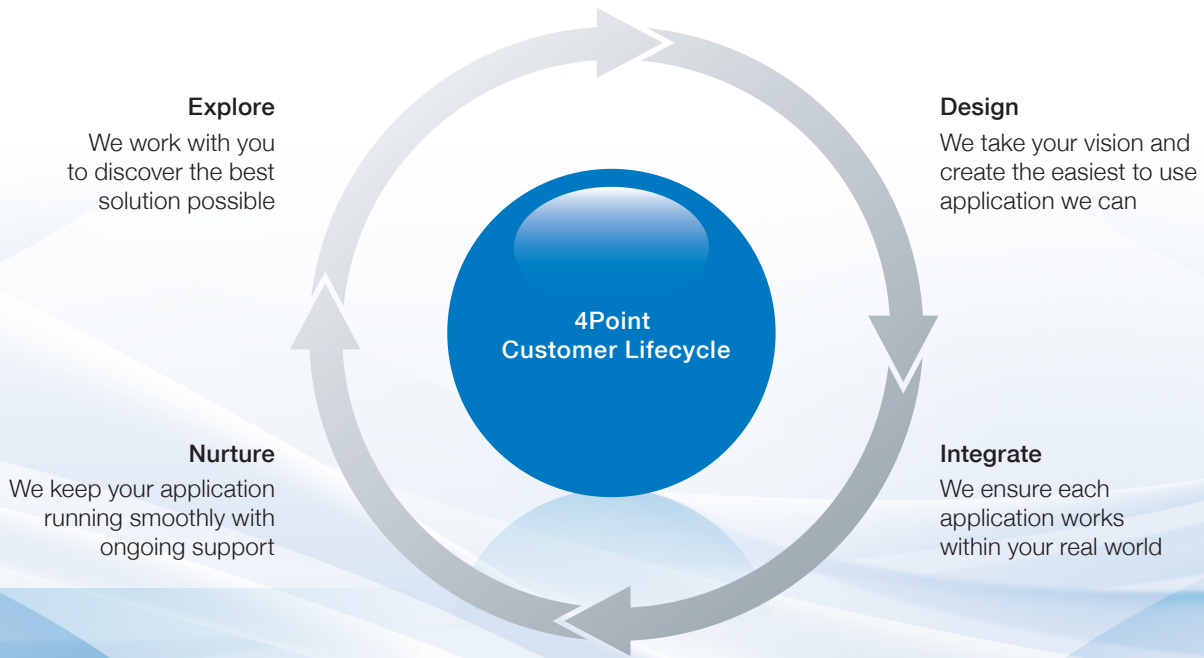

We work as a team so you get immediate access and a committed response for the entire solution lifecycle. From day one of any engagement we’re invested in you.

From our executive team to our solution architects, system architects, project managers, and support team, we believe in being there for our customers.

Enterprise Architecture Experts
4Point has strong roots in building robust solutions intent on making communicating easier for our customers. Our custom solutions have included:

- Automating processes, e.g., claims processing, account onboarding
- Electronic document management, e.g., event management, loans, benefits, and emortgage packages
- Securing information, e.g., government, financial, and legal documents, as well as educational transcripts
- Streamlining communications, e.g., customer communications management solutions

4Point Courts Solutions
Courts looking to integrate their criminal justice systems or utilize e-filing can leverage the power of the Adobe Digital Enterprise Platform and PDF with 4Point’s Integrated Criminal Justice solution.

Interactive solutions focused on the customer

Rich Enterprise Applications

We combine the right user interface with robust enterprise technology when creating our Rich Enterprise Applications (REA). For any organization looking for an Internet application that meets your users's needs, 4Point offers the experience and expertise of countless enterprise application installs, built with solid usability and design practices.

End-to-End Services

4Point offers full services to aid in the assessment, design, development, and deployment of the enterprise application you need, including:

- Solution design, e.g., discovery services, review and assessment, architecture, and design requirements
- User interface design and usability review and assessment
- Deployment services, e.g., testing, production environments, training
- Support, e.g., go-live support, available annual application support

It's a New World

We believe in a solid approach to new technologies, new ways of resolving old issues, and the next great thing. We balance best practices with innovative new media like Adobe AIR, and incorporate enterprise-focused design concepts into everything we do.

We've taken our ideas into new directions for customers eager to embrace online / offline desktop or mobile applications and developed unique solutions that transform the way people interact within and with organizations.

Adobe Enterprise Solution Experts

We're the largest Adobe consulting practice outside of Adobe. Our breadth and depth of solution deployment experience with Adobe's enterprise software coupled with our decades long history of working with e-forms and document-centric processes has made us Adobe's leading business partner in North America. Whatever you need, 4Point can help. Contact us today.
