## HEALTH CHECK

### Overview

4Point is the industry leading expert on Adobe enterprise products and solutions addressing forms, workflow and print. We have built thousands of application solutions using AEM, LiveCycle and Central. Our team of experts have the depth to assess your application and Adobe technology deployment to determine the overall Health of the implementation.

### Health Check

The Health Check is a rapid engagement that will provide you with a high-level assessment, including:

- Review of the Adobe product deployed
- Review the application and functionality use
- Review of the product version deployed versus current/ pending product available
- Customer interviews to assess operation, needs and expectations [up to four (4) hours with up to two (2) customer contacts]
- Comparison to 'Best-Practices'
- Assess what could be done to improve effectiveness or improve process
- Provide next step recommendations. Presentation and summary report will be provided.
